

HERE ARE REASONS.

Ten Points in Favor of the Young Californian.

A CORBETT ADMIRER SHOWS WHY HIS MAN SHOULD WIN.

President Harrison of the Olympic Athletic Club Gives Grounds for His Patriotic Prophecy—To-Morrow's Regatta—Latonia Fall Meeting—Gossip From Turf, Ring and Diamond.

Despite the fact that Sullivan is an almost universal favorite in the coming fight, Corbett has his admirers. They are sincere, will put up their money on their favorite and is more will give several reasons for their judgment. It is an actual fact that but the men who talk Sullivan have no other reason for their opinions than the name of a name.

There are good reasons, and plenty of them, which can be advanced in favor of Sullivan's winning, which can be offset by such facts as the champion's disposition, his age and the terrible ordeal of training off his superfluous weight. There are no effects of this nature in Corbett's case.

Wm. Green Harrison, President of the Olympic Athletic Club of San Francisco, is a recognized authority on athletics, and on publication of the fight, was friendly to Corbett, having wished him well through all his pugilistic career. He knows the fighter like a book, and has all his fine points on his fingers ends. His reasons why Jim Corbett should be successful in his battle with John L. Sullivan ought to be interesting to all.

"Sullivan, he says, in all his life has been pitted against two men only who would today be permitted to enter the ring in any first-class professional club. These men were Mitchell and Kildare. At the hands of the former, Sullivan was beaten, and forced a practical defeat.

When a champion was drawn at the hands of an inferior man he is defeated. Twenty men in the ring today could do what Sullivan has done. Sullivan drew the color line on Jackson. He had some excuse in that the fight was his master. He has persistently avoided Mitchell, and he has been forced to meet Corbett."

After which general statement he gives the following reasons for Corbett's expected win: First, he is the most scientific boxer in the ring to-day in any class. Second, he is taller, longer in the reach than his opponent. The third reason is that he is more fearless, by Gileads out of Moyne, while the same owners' Pickpocket rain a dead heat with the Monks, colt, for the yester-day prize. The summary follows:

First race, six furlongs—Pessara, first; Correction, second; St. Alacat, third. Time, 1:14½.

Second race, five furlongs—Latonia, first; Burlington, first; Lauder, second; Aja, third. Time, 1:14½.

Third race, four and a half furlongs: Carrie Belle, 107; April, 112; Little Mollie, 107; St. Paul, 112; Red Line, 107.

CLOSING DAY AT MORNEMON PARK.

The Monmouth Park summer meeting of 1892 closed yesterday. The only incident that marred the sport was the final race in which Pickering by foul riding on Schuyler caused the death of the gelding Julio and gave the well-known light-weight Jockey Penn a fright that the lad will not recover from in some time. The stake features of the programme were the Cataret for 2-year-olds and the Jersey for 3-year-olds. Messrs. Brown & Hause, of the Jersey, were the only ones to win gelding, by Gileads out of Moyne, while the same owners' Pickpocket rain a dead heat with the Monks, colt, for the yester-day prize. The summary follows:

First race, six furlongs—Pessara, first; Correction, second; St. Alacat, third. Time, 1:14½.

Second race, five furlongs—Latonia, first; Burlington, first; Lauder, second; Aja, third. Time, 1:14½.

Third race, four and a half furlongs—Picadore, first; May Win, second; Russell, third. Time, 1:14½.

Fourth race, the Jersey, five furlongs, mile and a half—Latonia, first; Burlington, first; Lauder, second; Picadore, third. Time, 1:14½.

Fifth race, five furlongs—Latonia, first; Burlington, first; Lauder, second; Aja, third. Time, 1:14½.

Sixth furlongs—Picadore, first; St. Snook, second.

TRACE TALK.

Beck, Magee, Samarian, Capt. Brown, Queen of the Golden West, were the winners at the Glendale County course yesterday.

The race over the West Side course at Chicago yesterday were won by George V. White Wings, Valleria, Rudolph, Sam Farmer and Tom Mackin.

The winners at Hawthorne yesterday were Fred Barnes, Mollie M., Patrick, Rouser and Van Cluse.

TROTTING.

The management of the Lexington (Ky.) trotting meeting are striving to emulate the example of the Latonia directory in infringing on the rights of St. Louis to certain racing dates. The Latonia affair is well known in the minds of St. Louisans to warrant calling. The Lexington people are striving, it seems, to deepen the guilt of Kentucky turf men in this regard.

The last meeting of the Southwestern Trotting Association at the date, Oct. 3 to 8, was granted to St. Louis by Terre Haute only after great pressure from the Association, which had brought it on to prevent McLains.

Lexington was one of the associations that gave consent to and recognized the race.

Since then however that Association first claimed Saturday Oct. 8 and then pushed it forward to Oct. 15, it is now awaiting the meeting of the Association to an immense. Tenth, he has defeated several good men, and he was robbed of a victory when he fought Jim McCall.

Kildare is another. Cosello is also a good man. McCaffrey was once regarded as good enough to meet Sullivan. All these men are beaten, and are in other words Corbett has already defeated more good men than Sullivan has."

GOODDARD'S CHALLENGE.

Joe Gooddard before stepping into the ring at the California Athletic Club last night announced that he would challenge the winner of the Latonia-Corbett fight. He then proceeded to point out that he, too, when he had agreed to step in ten rounds, he had accomplished his purpose but was robbed of the chance through police interference. Eight vicious rounds were fought, Goddard roaring his opponent and beating his face into a jelly. Despite the fearsome punishment, he was not beaten. In the eighth round Gooddard fended Smith so often that the police interfered. referee Johnson declared the bout a finish.

Following the bout there was a finish fight between Robert Dobbs (colored) of Denver and George McKenzie of Australia, light weights. Dobbs won in twenty-four rounds.

FOUGHT TWO ROUNDS.

PORTLAND, Ore., Aug. 26.—Billy Woods, champion heavy-weight of Colorado, knocked out Billy Gandy, New Mexico in two rounds last night. The bout was for a purse of \$200. Woods to stop his opponent in a vicious upper-cut did the work.

THE TUF.

PORLAND, Ore., Aug. 26.—Arthur Walker of Australia and Dick Johnson of Portland (colored), middle-weights, fought before the Pastime Athletic Club last night for a purse of \$50. Johnson was knocked out in the first round.

FOUGHT TWO ROUNDS.

PEORIA, Ill., Aug. 26.—Billy Woods, champion heavy-weight of Colorado, knocked out Billy Gandy, New Mexico in two rounds last night. The bout was for a purse of \$200. Woods to stop his opponent in a vicious upper-cut did the work.

THE TUF.

The tenth annual fall meeting of the Latonia Jockey Club of Cincinnati will be inaugurated to-morrow afternoon. In point of duration, value of stakes and purses, class of horses and size of fields the coming meeting promises to eclipse all previous ones at this course. All this week car loads of crack bands have been arriving and before the bugle sounds calling the flyers to the post for the first race to-morrow there will be in the neighborhood of about six hundred horses quartered at the course. The programme provides for thirty-one days' consecutive racing, excepting, of course, Sunday. Every other day there will be a gulf cup race and a feature race. Some excellent sport will result. Judge Perkins, who had a controlling interest in the course, has sold his stock to another and the sale of the stock was consummated last spring, but was announced definitely for the first time this week. No change in the management is contemplated by the new stockholders. President Nelson and secretary Hopper will in consequence continue to act in their present capacity.

NEW GARFIELD PARK.

CHICAGO, Ill., Aug. 26.—The Garfield Park track syndicate has purchased for \$200,000 a 100-acre tract at Roby Station, Ind., adjoining Chicago on the east and extending from One Hundred and Sixty to One Hundred and Twelfth streets. A race course will be established there and \$100,000 will be expended on improvements.

EAST ST. LOUIS JOCKEY CLUB.

The "Father of Water" must have been on a rampage lately at some point North of the city. Every race at the track has been getting their meat and drink for the same money in the stirred up waters of the Mississippi. It is a fortunate thing that the bright side of the picture is presented by the bountiful supply of Hyleis spring water, clear as a crystal, sparkling as a diamond, the beauty of which is the chief attraction of the city of St. Louis. Is \$1.50 too much to pay for a week's health insurance for yourself and your family.

THE IRON HALL.

Head Center Somersby's Mission to Baltimore.

CHICAGO, Ill., Aug. 26.—Supreme Chief Justice Somersby of the Order of Iron Hall, who has been in Chicago for some days, has gone to Baltimore with a view to reorganize the order on a new basis. W. H. Delano, the chief of the order in Illinois, at whose house Somersby staid while here, addressed a meeting of Iron Hall members and induced them to be favorable on some points, and have a local receiver appointed to wind up the affairs of the old order.

CANNOT PREDICT THUNDERSTORMS.

Result of the Experiments of the Signal Service Bureau.

An interesting series of experiments has been going on in the Signal Service department in reference to the location and tracing of local showers and thunderstorms. A few of the best posted Signal service observers, among whom is Observer Hammont of this city, have been selected to examine into the possibility of furnishing reliable predictions in regard to these atmospheric disturbances. The work done in this city as well as elsewhere would tend to prove that any extensive prediction is impractical. Within the last year there have been an unusually large number of such storms in Missouri, Kansas, the Indian Territory and Northern Arkansas. The information concerning which was received at the central office in this city. A collation of the facts prove that in nearly all cases they were started in different parts of the state, in different directions, were perfectly independent of each other and seldom extended over a greater extent of country than twenty or forty miles. It would therefore be impossible to give warning of the approaching of a thunder storm over an very extended area, but horoscopes could be given to town after town in the immediate vicinity. The observations taken at other points show the same results, and it is regarded as established that except in a few exceptional instances, thunder storms are erratic and local in their character.

A SCENE OF SPLENDOR.

The First Street Illumination of the Season
Witnessed by an Enormous Crowd.

The down-town streets were crowded last night as they have never been crowded before. The attraction was the first illumination of the season. It was really the first test of the illuminations and was a decided success for a first night. The great globe at Broadway and Olive street presented a magnificent sight, but after being lit awhile the insulation burned out and the lights on the place had to be extinguished. This defect will be remedied however, and the other special pieces will be ready by the time of the next illumination.

The jam on the streets was so great that those in carriages were compelled in many places to remain stationary, and the crowds on the sidewalks and streets often came to a standstill. The crowd was so great that a jam one lady fainted at Broadway and Olive street. The final touches not having been put on Grant's statue, and the star and stripes were not yet in place, the stars were not lit up. The other special features were all illuminated and made magnificent displays. The next illumination will be on Sept. 1, when all the special pieces will be illuminated.

With the return of warmer weather comes the return of fresh air and recreation. The St. Louis & Suburban cars are running from Sixteenth to Locust to Wells every two minutes, and to Normandy and Hammona every fifteen minutes. This is the pleasantest way for visitors to see the prettiest sections of the city and county.

WHEAT GRADED HIGHER.

Important Change in the Standard for Hard Wheat

Beginning with this month Chief Grain Inspector Joseph M. O'Shea has decided to raise the inspection standard of hard winter wheat. Formerly the minimum weight fixed for No. 2 was 88 pounds. This has been raised to 90 pounds. The standard for No. 3 has likewise been advanced. Formerly it was 55 pounds, and now it has been fixed at 56 pounds. This change is considered one of great importance by St. Louis dealers, as it will tend to put a stop to the complaints of the low standard of wheat grades. The Board of Standard Commissioners of Missouri, as they learned of the decision of the Missouri Inspector, changed their rules to correspond.

The Exposition Echoes.

SAYING AND DOING.

SAYING is one thing, doing is another. Words are known to be true only by existent facts. Words are believed to be true only by the accredited veracity of the utterer.

It surely would be unwise for us to go into an unlimited fabrication of clothing falsities.

It would be quite as unlike us as our clothing is unlike that of those who practice such methods. Not every saying of ours shall be verified by the doing.

The supposititious "mark-downs" are not in vogue with us. It is a way of saying and doing we have not yet acquired. That which was so many dollars with us "was" a value unmet by any. Whatever the "is" price put upon our clothing may be, it is a discount from the first value and still unmet. We are not given to saying as much as some others do, but in the line of doing we get there, and the people know it.
